**Volume 9      Number 10B**

**September 2016**

|                                                                                                                            |    |
|----------------------------------------------------------------------------------------------------------------------------|----|
| <b>Recent Advances in Finite Element Applications in Artificial Lumbar Disc Replacement</b>                                |    |
| Z. J. Zhang, Y. T. Sun, X. J. Sun, Y. Li, Z. H. Liao, W. Q. Liu.....                                                       | 1  |
| <b>A More Effective Method of Extracting the Characteristic Value of Pulse Wave Signal Based on Wavelet Transform</b>      |    |
| X. W. Zhang, Y. Z. Shang, D. X. Guo, T. X. Zhao, Q. P. Li, X. A. Wang.....                                                 | 9  |
| <b>AndroidCare: A Simple and Low Cost Assisted Living Solution</b>                                                         |    |
| A. Otero, A. Escario, D. G. Márquez, G. Caffarena, R. García-Carmona, A. Iriarte, R. Raya.....                             | 20 |
| <b>Mechanism of Magnetic Pulse Wave Signal for Blood Pressure Measurement</b>                                              |    |
| Y. Zhang, Y. B. Li, X. M. Chen, N. Deng.....                                                                               | 29 |
| <b>Feature Optimization of Speech Emotion Recognition</b>                                                                  |    |
| C. X. Yu, L. Xie, W. P. Hu.....                                                                                            | 37 |
| <b>A Novel Approach for Brain Tumor Detection Using MRI Images</b>                                                         |    |
| A. El K. Isselmou, S. Zhang, G. Z. Xu.....                                                                                 | 44 |
| <b>The Research on Identification of Gene Splice Sites by Support Vector Machine</b>                                       |    |
| H. B. Li, G. Z. He.....                                                                                                    | 53 |
| <b>Mannitol and Sorbitol Improve Uniformity of Adventitious Shoots Regeneration in <i>Echinacea purpurea</i> L. Moench</b> |    |
| X. L. Chen, D. L. Li, Y. S. Yang, H. Wu.....                                                                               | 58 |
| <b>Brain Functional Network Improved by Magnetic Stimulation at Acupoints during Mental Fatigue</b>                        |    |
| S. Yang, N. Ai, Y. Y. Qiao, L. Wang, H. L. Yu, G. Z. Xu.....                                                               | 65 |
| <b>Auditory BCI Research Using Spoken Digits Stimulation and Dynamic Stopping Criterion</b>                                |    |
| Y. Zhang, L. Wang, M. M. Guo, L. Qu, H. H. Cui, S. Yang.....                                                               | 71 |
| <b>MicroRNAs Play Significant Roles in Pathogenesis of HBV-Related Diseases</b>                                            |    |
| G. Y. Chen, M. Liu, Z. G. Jiang, M. B. Yu, S. C. Wei.....                                                                  | 78 |
| <b>Evaluating the Combined Optimization of Oxygenation and Ventilation in a Patient Simulator</b>                          |    |
| J. Kretschmer, C. Bibiano, P. Stehle, K. Möller.....                                                                       | 90 |
| <b>EIT Image Reconstruction by Modified Data</b>                                                                           |    |
| B. Gong, B. Schullcke, S. Krueger-Ziolek, K. Moeller.....                                                                  | 99 |

## **A New Lung Mechanics Model and Its Evaluation with Clinical Data**

M. Jayaramaiah, B. Laufer, J. Kretschmer, K. Möller.....107

## **A Prediction Method of Protein Disulfide Bond Based on Hybrid Strategy**

P. F. Sun, Y. H. Ding, Y. Y. Huang, L. Zhang.....116

## **Easy Breathing—Definition of a Gamification System to Support the Chronic Care of Childhood Asthma**

R. F. Hu, J. Cancela, G. Fico, C. Vera-Muñoz, W. B. Sheng, M. T. Arredondo.....122

## **A Hybrid Algorithm for Disease Association Study**

B. Wei.....129

## **Comparison of Image Reconstruction Algorithms in EIT Imaging**

B. Schullcke, S. Krueger-Ziolek, B. Gong, U. Mueller-Lisse, K. Moeller.....137

## **Retinal Vascular Tortuosity in Hospitalized Patients with Type 2 Diabetes and Diabetic Retinopathy in China**

S. Zhu, M. van Triest, M. Tong, T. Lamers, P. Han, W. Qian, B. M. ter Haar Romeny.....143

## **Automatic Detection of Airways in CT Scans of Cystic Fibrosis Patients**

T. Chaudhuri, B. Gong, S. Krueger-Ziolek, B. Schullcke, K. Moeller.....155

## **Finite Element Analysis of Osteotomy Treatment for Kienbock's Disease**

G. Yang, K. A. Partridge, A. Abdel-Mohti, A. J. McMullen, H. Shen.....161

## **Methodologies of Biophysical Wound Healing Therapies**

J. D. Parente, M. Müller, K. Möller.....171

## **Hippocampus Gray Matter Atrophy Happens More Seriously in AD Female Patients**

I. Beheshti, H. Matsuda, F. Farokhian, C. L. Yang.....180
