

The Special Session on Optics & Optoelectronics in Biology and Medicine

IEEE 国际学术会议:光学及光电子学在生物和医学中的应用
(EI 检索)

August 14-16, 2009 **Wuhan, China**

<http://www.scirp.org/conf/sopo/2009>

This special session will be held from August 14th to 16th, 2009 in Wuhan within SOPO 2009. **All papers accepted will be published by IEEE and indexed by EI Compendex.**

Topics

- **Advances of Optoelectronics in Biology and Medicine**
- **The New Development of Biological Medical Image**
- **Multimodal and Hybrid Biomedical Imaging**
- **Molecular Medical Imaging**
- **Biomedical Optics**
- **Optics in Biotechnology**
- **Optical Coherence Tomography**
- **Optical-system Engineering for Medicine**
- **Biomedical Photonics and Photonic Technology**
- **Tissue Optics and Diffuse Optical Imaging**
- **Minimally Invasive Optical Diagnostics**
- **Biological Microscopy and Multiphoton Microscopy**
- **Photonic Therapeutics, Diagnostics and Instrumentations**
- **Laser Medical Diagnostics, Therapeutics and Laser Surgery**
- **Photochemistry, Photobiology and Photodynamic Therapy**
- **New Techniques in Photobiology and Photomedicine**

Sponsors

IEEE Laser & Electro-Optics Society (LEOS)
Wuhan University
