Special Issue on Financial Risk Management

Call for Papers

Financial risk management serves as an essential part of the daily operation of financial institutions. Its way of content and means depend greatly on the development trend of financial market. Besides, early traditional finance provided valid theory support for financial risk management. Whereas there was some abnormal phenomenon in world financial markets that could not be explained by early theories. To overcome the shortcomings of traditional finance, the new finance came into being.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring financial risk management. Potential topics include, but are not limited to:

- Operational risk
- Credit risk
- Market risk
- Foreign exchange risk
- Shape risk
- Volatility risk
- Liquidity risk

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.
