Special Issue on Agriculture and Economic Growth

Call for Papers

The application of economic theory in agriculture optimizes the production and distribution of agriculture resources. Agricultural economics plays a role in the economics of development.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Agriculture and Economic Growth. Potential topics include, but are not limited to:

- Agricultural economics and rural development
- Marketing strategies and market analysis
- Agriculture business management
- Cost-effective approach
- Agricultural and consumer economics
- Production and income
- Social capital and agricultural innovation
- Agronomy for sustainable development
- Labor force and employment
- Farm management and economic performance
- Agribusiness and management
- Agricultural trade balance
- Agricultural productivity growth

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Agriculture and Economic Growth” should be chosen during your submission.

According to the following timetable:
