Special Issue on Material Physics and Chemistry

Call for Papers

This special issue covers subjects of metallurgy, engineering ceramics, specialty polymer, composites, low D materials, surface modification and coatings, Also include energy materials, green materials, optical and optoelectronic materials, electronic, magnetic and semiconductor materials, biomaterials, sustainable materials, and so on. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of material physics and chemistry.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore material physics and chemistry. In this special issue, potential topics include, but are not limited to:

- Material structure
- Supramolecular structure and materials
- Melt and vitreous
- Microstructure of materials
- Surface and interface
- Phase equilibrium

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly specify the “Special Issue” under your manuscript title. The research field “Special Issue – Material Physics and Chemistry” should be selected during your submission.

Special Issue timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>August 20th, 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>October 2019</td>
</tr>
</tbody>
</table>
