Special Issue on Philosophy of Logic

Call for Papers

In Wittgenstein's view, the world is divided into something that can be said and something not to be said. The task of philosophy is not to put forward some philosophical propositions, but to clarify them, that is, to clarify ideas from the logic. Logic is a discipline that studies the laws of thought. Generally, it can be divided into formal logic, informal logic and symbolic logic and mathematical logic. Logic is used in most intelligent activities.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring philosophy of logic. Potential topics include, but are not limited to:

- Logical analysis
- Logical language
- Types of logic
- Relations of logic and philosophy
- Formal logic and traditional philosophy
- Truth and validity
- Fallacies and paradoxes
- Application of logic

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Philosophy of Logic” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>January 21st, 2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>March 2020</td>
</tr>
</tbody>
</table>
