

Special issue on Epilepsy Research and Treatment

Call for Papers

Characteristics of **Epilepsy** is a long term risk of recurrent seizures and the seizures vary. About 50 million people worldwide have epilepsy, and nearly 80% of epilepsy occurs in developing countries. The cause of epilepsy is complicated, including genetic factors, brain disease, the whole body or systemic diseases and so on.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Epilepsy Research and Treatment**.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "*Special issue- Epilepsy Research and Treatment*" should be chosen during your submission.

According to the following timetable:

Manuscript Due	April 10 th , 2013
Publication Date	June, 2013

Guest Editor:

Prof. Leonid P. Titov

The Republican Research and Practical Center for Epidemiology and Microbiology, Belarus
