

Special issue on Atherosclerosis in Cardiovascular Disease

Call for Papers

Cardiovascular Disease can be divided into acute and chronic. The causes of cardiovascular disease are diverse but generally related to atherosclerosis. Additionally, with aging come a number of physiological and morphological changes that alter cardiovascular function and lead to subsequently increased risk of cardiovascular disease, even in healthy asymptomatic individuals.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Atherosclerosis in Cardiovascular Disease**.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "*Special issue- Atherosclerosis in Cardiovascular Disease*" should be chosen during your submission.

According to the following timetable:

Manuscript Due	May 8 th , 2013
Publication Date	July, 2013

Guest Editor:

Prof. Leonid P. Titov

The Republican Research and Practical Center for Epidemiology and Microbiology, Belarus
