

## Special Issue on Water Pollution

**Water pollution** is a major global problem which requires ongoing evaluation and revision of water resource policy at all levels. It has been suggested that it is the leading worldwide cause of deaths and diseases, and that it accounts for the deaths of more than 14,000 people daily. An estimated 700 million Indians have no access to a proper toilet, and 1,000 Indian children die of diarrheal sickness every day. Some 90% of China's cities suffer from some degree of water pollution, and nearly 500 million people lack access to safe drinking water. In addition to the acute problems of water pollution in developing countries, developed countries continue to struggle with pollution problems as well. In the most recent national report on water quality in the United States, 45 percent of assessed stream miles, 47 percent of assessed lake acres, and 32 percent of assessed bays and estuarine square miles were classified as polluted.

In this special issue, we are going to invite front-line researchers and authors to submit original research and review articles that explore Water pollution. Potential topics include, but are not limited to:

- 1 Ground water pollution control
- 1 Hydrobiology and water pollution
- 1 Methods of monitoring water quality
- 1 Modeling and measuring of water pollution

Before submission authors should carefully read over the journal's Author Guidelines, which are located at <http://www.scirp.org/Journal/ForAuthors.aspx?JournalID=144> .

Prospective authors should submit an electronic copy of their complete manuscript through the journal Paper Submission System at <http://papersubmission.scirp.org/admin/initLoginAction.action?journalID=23> , "Special Issue" under your manuscript title should be specified and the research field "Special issue –Water Pollution" should be chosen during your submission.

according to the following timetable:

Submission Deadline	15th,June,2012
Publication Date	30th,July,2012

### Editors in Chief

Prof. Thangarasu Pandiyan, National Autonomous University of Mexico (UNAM), Mexico

Dr. Qingren Wang, University of Florida, USA
