

## Special Issue on Air Quality and Public Health

### Call for Papers

This special issue on “**Air Quality and Public Health**” will be focusing on the latest development in air quality and the effects of public health caused by air pollution. Generally, an air quality index is used to show the air quality of environment people live clearly. As one of the most important problems closely related to human life, **air quality and public health** are of great attractions to researchers.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **Air Quality and Public Health**. Potential topics include, but are not limited to:

- Air quality and air quality index
- Particulate matter and PM 2.5
- Health effects caused by air pollution
- Reduction efforts and control devices

Authors should read over the journal’s [Authors’ Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue- Air Quality and Public Health**” should be chosen during your submission.

According to the following timetable:

Manuscript Due	October 8th, 2013
Publication Date	December 2013
