

Special Issue on Environmental Management

Call for Papers

Environmental resource management is the management of the interaction and impact of human societies on the environment. It is not, as the phrase might suggest, the management of the environment itself. Environmental resources management aims to ensure that ecosystem services are protected and maintained for future human generations, and also maintain ecosystem integrity through considering ethical, economic, and scientific variables. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **environmental management**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **environmental management**. In this special issue, potential topics include, but are not limited to:

- Environmental management system
- The environment Impact assessment
- Environmental protection measures
- Environmental monitoring
- Environmental regulations
- Environmental pollution

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Environmental Management**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	September 25th, 2014
Publication Date	November 2014

Guest Editor:

Prof. Shuguang Deng
