

## Special Issue on Water Treatment Technology

### Call for Papers

Water treatment describes those industrial-scale processes used to make water more acceptable for a desired end-use. These can include use for drinking water, industry, medical and many other uses. Such processes may be contrasted with small-scale water sterilization practiced by campers and other people in wilderness areas. The goal of all water treatment process is to remove existing contaminants in the water, or reduce the concentration of such contaminants so the water becomes fit for its desired end-use. One such use is returning water that has been used back into the natural environment without adverse ecological impact. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Water Treatment Technology**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Water Treatment Technology**. In this special issue, potential topics include, but are not limited to:

- Wastewater treatment
- Nanotechnology
- Photocatalysis
- Adsorption
- Circulating water system
- Sea water desalination
- Industrial softened water

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly note that the “**Special Issue**” under your manuscript title should be specified and the research field “**Special Issue - Water Treatment Technology**” should be selected during your submission.

Also please note the following timetable:

Submission Deadline	February 20th, 2014
Publication Date	April 2014

**Guest Editor:**

**Scientific Research**  
*Open Access*

**Journal of Water Resource and  
Protection**  
ISSN: 1945-3108

---

Prof. **Mohamed Nageeb Rashed**  
Aswan University, Egypt
