

## Special Issue on Water Policy Research

### Call for Papers

**Water Policy** is to treat water as economic good which the ministry claims to promote its conservation and efficient use. Water resources management controls *water resources systems*, that are combinations of constructed water control facilities and natural, or environmental elements that work together to achieve water management. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **water policy research**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **water policy research**. In this special issue, potential topics include, but are not limited to

- Water right
- Water relations
- Water administrative management
- Dispute on water right
- The international water law
- Water project management
- Water resources systems

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly note that the “**Special Issue**” under your manuscript title should be specified and the research field “**Special Issue - Water Policy Research**” should be selected during your submission.

Also please note the following timetable:

Submission Deadline	September 4th, 2014
Publication Date	November 2014
