Call for Papers

CellBio

ISSN Print: 2325-7776 ISSN Online: 2325-7792

http://www.scirp.org/journal/cellbio

CellBio (cellbio) is an international journal dedicated to the latest advancement of Cell Biology. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Cell Biology. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Cell Biophysics
- Cell Physiology
- Cell Structure and Morphology
- Cells Evolution
- Cellular Immunology
- Cytopathology
- Membrane Biology
- Stem Cell Biology

We are also interested in: 1) Reviews; 2) Short communications (limited to ⩽4 printed pages, 2 figures, could take the form of short definitive pieces of research reports, well-constructed and concisely written novel hypothesis or critical commentary of an important topic in cell biology).

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
