Table of Contents

Volume 4 Number 3

March 2014

Emerging Noninvasive Neurostimulation Technologies: CN-NINM and SYMPATOCORECTION

Y. P. Danilov, V. S. Kublanov.....105

Factors Determining the Detection Time to Flavor in Healthy Adults

S. Miyaoka, T. Yamazaki, N. Ito, Y. Miyaoka.....114

Evaluation of Acute Toxicity and Sedative Effects of Ethylic Extract of *Thymelaea lythroides* in Wistar Rats

I. Berkiks, A. Mesfioui, A. Kribii, A. Ouichou, B. Benazzouz, A. El Hessni.....120

Visual Selective Attention in Adults with ADHD: Electrophysiological Evidence of Facilitation and Suppression

J. W. Couperus, B. R. Alperin, D. Furlong, K. Mott.....129

Cognitive Effects of Late Life Depression: Review of Neuropsychological Findings

M. S. Korsnes, I. D. Ulstein.....141

Call for Papers

Journal of Behavioral and Brain Science

ISSN: 2160-5866 (Print) ISSN: 2160-5874 (Online)

<http://www.scirp.org/journal/jbbs>

Journal of Behavioral and Brain Science (JBBS) is an international journal dedicated to the latest advancement of behavioural and brain function. Articles dealing with the neuroanatomical and neurochemical basis of behavior are especially welcomed. Multidisciplinary contributions from all fields of the neurosciences are encouraged so long as emphasis is placed in investigating the biological substrates of behavior and of mental processes underlying behavior.

Subject Coverage

This journal invites original research and review papers that address the following issues in bioscience and biotechnology. Topics of interest include, but are not limited to:

- Cognitive Neuroscience
- Neurobiology
- Neurology
- Neuropharmacology and Psychopharmacology
- Neurosurgery
- Psychiatry

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **JBBS**.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. Authors are responsible for having their papers checked for style and grammar prior to submission to JBBS. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
