

Table of Contents

Volume 5 Number 2

April 2014

**An Overview of the Synthesis and Gene Transfer Properties of Triblock Copolymers
Poly(2-Methyl-2-Oxazoline-b-Tetrahydrofurane-b-2-Methyl-2-Oxazoline)**

B. Rasolonjatovo, B. Pitard, P. Guégan, H. Cheradame.....53

**Mutual competitive Absorption of Water and Essential Oils Molecules by Porose Ligno-Cellulosic
Materials**

B. Češek, M. Milichovský, J. Gojný.....66

Microbial Biofilms Formed in a Laboratory-Scale Anammox Bioreactor with Flexible Brush Carrier

E. A. Botchkova, Y. V. Litti, B. B. Kuznetsov, A. N. Nozhevnikova.....76

A Biomimetic Gellan-Based Hydrogel as a Physicochemical Biofilm Model

J. Hellriegel, S. Günther, I. Kampen, A. B. Albero, A. Kwade, M. Böl, R. Krull.....83

Controlling Osteogenic Differentiation through Nanoporous Alumina

S. Pujari-Palmer, T. Lind, W. Xia, L. P. Tang, M. K. Ott.....98

The Lipid Bilayer of Biological Vesicles: a Liquid-Crystalline Material as Nanovehicles of Information

A. Alfsen, I. Tatischeff.....105

**Influence of Alternating and Static Magnetic Fields on Drug Release from Hybrid Hydrogels
Containing Magnetic Nanoparticles**

M. Uva, D. Pasqui, L. Mencuccini, S. Fedi, R. Barbucci.....116

Properties and Structure of Microcrystalline Chitosan and Hydroxyapatite Composites

L. Pighinelli, M. Kucharska.....128
