Prof. Shaocai Yu North Carolina State University, USA

Editorial Board

Dr. Jørgen Brandt Aarhus University, Denmark
Prof. Chak K. Chan Hong Kong University of Science and Technology, China
Prof. Yoon-Seok Chang Pohang University of Science and Technology, South Korea
Dr. Ke Du University of Calgary, Canada
Dr. Jiwen Fan Pacific Northwest National Laboratory, USA
Dr. Guobin Fu CSIRO Land and Water, Australia
Dr. Paolo Di Girolamo Università degli Studi della Basilicata, Italy
Dr. Andreas Hofzumahaus Institute of Energy and Climate Research, Germany
Dr. Yanqing Lian University of Illinois at Urbana-Champaign, USA
Prof. Ioannis Liritzis University of the Aegean, Greece
Prof. Junboun Park Seoul National University, South Korea
Dr. Alessandro Pezzoli Turin Polytechnic, Italy
Prof. Rajib Shaw Kyoto University, Japan
Prof. Daniel Tong US NOAA Air Resources Laboratory, USA
Dr. Krishna Prasad Vadrevu University of Maryland, USA
Prof. Julian X. L. Wang US NOAA Air Resources Laboratory, USA
Prof. Tijian Wang Nanjing University, China
Dr. Jianjun Xu George Mason University, USA
Prof. Fangqun Yu State University of New York at Albany, USA
Prof. Qiang Zhang Sun Yat-sen University, China

Table of Contents

Volume 6 Number 1

January 2016

Downscaling Climate Projections over La Plata Basin C. Mourão, S. C. Chou, J. Marengo.....	1
Seasonal Variations of Aerosol Optical Properties and Identification of Different Aerosol Types Based on AERONET Data over Sub-Sahara West-Africa M. Balarabe, K. Abdullah, M. Nawawi.....	13
Analysis of Essential Meteorological Elements Surrounding Typhoon Sinlaku by Unmanned Aerial Vehicle Y. Li, S. Q. Ma, Z. B. Sun.....	29
Validation of a Statistical Forecast Model for Zonda Wind in West Argentina Based on the Vertical Atmospheric Structure F. A. Norte, S. Simonelli.....	35
Climate Shifts and the Role of Nano Structured Particles in the Atmosphere B. Ursem.....	51
Assessment of Road Dust Contamination in India D. Sahu, S. Ramteke, N. S. Dahariya, B. L. Sahu, K. S. Patel, L. Matini, J. Nicolas, E. Yubero, J. Hoinkis.....	77
Surface Snow, Firn and Ice Core Composition in Polar Areas in Relation to Atmospheric Aerosol and Gas Concentrations: Critical Aspects G. Santachiara, F. Belosi, A. Nicosia, F. Prodi.....	89
Fair Plan 8: Earth’s Climate Future—Pope Francis’ Population Mistake M. E. Schlesinger, M. Ring, E. F. Cross.....	103
Air-Ground Temperature Coupling: Analysis by Means of Thermal Orbits V. Cermak, L. Bodri.....	112
Organization of Propaganda Forums (Such as COP21) by Some Heads of State Seriously Disturbs Scientific Debates on Real Causes of Climate Global Changes C. Mbane Biouele.....	123

Causes of Ozone Layer Depletion and Its Effects on Human: Review

F. Anwar, F. N. Chaudhry, S. Nazeer, N. Zaman, S. Azam.....129

CH₄ Monitoring and Background Concentration at Zhongshan Station, Antarctica

L. G. Bian, Z. Q. Gao, Y. L. Sun, M. H. Ding, J. Tang, R. C. Schnell.....135

Atmospheric and Climate Sciences (ACS)

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

ACS aims to rapidly publish original scientific papers in all the fields of applied and/or climate atmospheric science. It covers the latest achievements and developments in the applied climate and atmospheric sciences, including but not limited to the following scopes as well as the theoretical and practical aspects of these disciplines:

- Agricultural climatology
- Air chemistry and the boundary layer, clouds and weather modification
- Air quality, atmosphere & health
- Applied meteorology
- Atmospheric acoustics, electricity, optics, physics, radiation and sounding
- Atmospheric and oceanic physics
- Atmospheric and solar-terrestrial physics
- Atmospheric chemistry
- Atmospheric environment
- Aviation climatology
- Biometeorology
- Building climatology and forestry climatology
- Climate change and broadcast meteorology
- Climate dynamics and variability
- Climate policy
- Clouds and precipitation physics
- Cosmical meteorology
- Dendroclimatology
- Dynamics of atmospheres and ocean
- Hydrology, oceans and atmosphere
- Hydrometeorology
- Marine meteorology and meteorology-associated geophysics
- Medical meteorology and medical climatology
- Meteorological, climatological and atmospheric environmental issues
- Navigation climatology
- Phenology and paleoclimatology
- Polar meteorology
- Radar meteorology and radio meteorology
- Remote sensing
- Satellite meteorology and synoptic meteorology
- Theoretical and applied climatology
- Tropical meteorology
- Weather systems, numerical weather prediction

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **ACS**.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
