Open Journal of Discrete Mathematics (OJDM) is an international journal dedicated to the latest advancement of discrete mathematics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of discrete mathematics.

Subject Coverage

The journal publishes original papers including but not limited to the following fields:

- Calculus of finite differences, discrete calculus or discrete analysis
- Combinatorics
- Discrete algorithms
- Discrete analogues of continuous mathematics
- Discrete probability
- Game theory, decision theory, utility theory, social choice theory
- Graph theory
- Hybrid discrete and continuous mathematics
- Information theory
- Networks

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.
