

## Special Issue on Neurobiology Research

### Call for Papers

**Neurobiology** is a branch of biology, however it is also an interdisciplinary science that collaborates with other fields such as chemistry, computer science, medicine and allied disciplines, philosophy, psychology and so on. The research field of Neuroscience covers the structure, function, development, genetics, physiology, pharmacology, pathology of the nervous system.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Neurobiology**.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue- Neurobiology Research**" should be chosen during your submission.

According to the following timetable:

Manuscript Due	April 24th, 2013
Publication Date	June 2013

#### Guest Editor:

Prof. Roberto Fernández-Lafuente  
Consejo Superior de Investigaciones Científicas, Spain
