

## Special Issue on Medical and Biological Engineering

### Call for Papers

Medical and Biological Engineering deals with all aspects of biomedical sciences. It has practical applications in medicine, health care and laboratory diagnostics. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Medical and Biological Engineering.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Medical and Biological Engineering**. Potential topics include, but are not limited to:

- Bioinformatics
- Biomechanics
- Biomedical technology
- Biostatistics
- Clinical biochemistry
- Clinical engineering
- Diagnostic radiology
- Medical biology
- Medical electronics
- Medical imaging
- Medical instrumentation
- Medical laboratory
- Molecular biology
- Tissue engineering
- Toxicology
- Life sciences and medicine

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Medical and Biological Engineering**” should be selected during your submission.

Special Issue Timetable:

---

Submission Deadline	April 18th, 2024
Publication Date	June 2024

**Guest Editor:**
