

## Special Issue on Phenols

### Call for Papers

Phenols are a class of chemical compounds consisting of one or more hydroxyl groups ( $\text{—OH}$ ) bonded directly to an aromatic hydrocarbon group. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Phenols.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Phenols**. Potential topics include, but are not limited to:

- Bisphenol
- Nitrophenol
- Hydroquinone
- Chlorophenol
- Phenolic compounds
- Nonylphenol
- Phenol compounds
- Drugs and bioactive natural products
- Extraction techniques and applications

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Phenols**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 18th, 2024
Publication Date	June 2024

**Guest Editor:**
