

Special Issue on Research on Climatology

Call for Papers

Climatology is important in determining the climatic patterns of a particular region. Establishing the climatic pattern is significant in deciding the economic activities that would thrive in that particular region. If the climate of a region is established to be cool and wet, it would be safe to conclude that agriculture might thrive in the region. Having a clear climate pattern makes it easier for people to understand the seasons of engaging in particular tasks. This is especially most important to tourists and farmers. Infrastructure development, especially buildings are dependent on climate. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **research on climatology**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **research on climatology**. In this special issue, potential topics include, but are not limited to:

- Regional climatology
- Physical climatology
- Climate dynamics
- Agricultural and forest climatology
- Climate risk and vulnerability
- Climate distribution
- Extreme climate and weather change
- Weather forecasting

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Research on Climatology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 27th, 2019
Publication Date	February 2020

Guest Editor:

Prof. **Shaocai Yu**, North Carolina State University, USA

Scientific Research
Open Access

**Atmospheric
and Climate Sciences**
ISSN Online: 2160-0422
