

## Special Issue on Pharmaceutical Analysis

### Call for Papers

**Pharmaceutical Analysis** is a branch of chemistry, which involves the series of process for the identification, determination, quantitation, and purification. This is mainly used for the separation of the components from the mixture and for the determination of the structure of the compounds.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **pharmaceutical analysis**. Potential topics include, but are not limited to:

- Drug screening process
- Stability and pharmaceutical testing
- Quality control and methods of biotech drug
- Tracer analysis
- Analysis of crude drugs
- Organic volatile impurity analysis
- Pharmaceutical cosmetic analysis
- Pharmaceutical additives analysis
- Pharmaceutical polymer analysis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Pharmaceutical Analysis**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	July 18th, 2017
Publication Date	September 2017
