

Special Issue on Plant Nutrition

Call for Papers

Plant Nutrition is a study that deals with plants' need for certain chemical elements including their specific and interactive effects on all aspects of plant growth and development, absorption, transport, and utilization. These chemical elements are referred to as plant nutrients.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **plant nutrition**. Potential topics include, but are not limited to:

- Nutrient cycling in ecosystems
- Nutrient dynamics
- Functions of nutrients on plant physiology and growth
- Microbes and nutrients
- Symbiotic relationship between microbes and crop yield
- Fertility and fertilizers
- Intensive agricultural production
- Precision agriculture and nutritional requirements
- The role of plant nutrients in disease control
- Integrated nutrient management

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Plant Nutrition**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	June 28th, 2016
Publication Date	August 2016
