## Special Issue on Weed Control

### Call for Papers

**Weed Control** is the botanical component of pest control, which attempts to stop weeds, especially noxious or injurious weeds, from competing with domesticated plants and livestock. Many strategies have been developed in order to contain these plants.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **weed control**. Potential topics include, but are not limited to:

- Characteristics of weeds
- Weed species
- Chemical control
- Biological control
- Mechanical control
- Costs of weeds
- Problems between weeds and crops
- Fodder & Feed
- Other benefits of weeds

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Weed Control**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	September 30th, 2016
Publication Date	November 2016
