
Special Issue on Seed Science

Call for Papers

A seed is an embryonic plant enclosed in a protective outer covering. The formation of the seed is part of the process of reproduction in seed plants, the spermatophytes, including the gymnosperm and angiosperm plants.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **seed science**. Potential topics include, but are not limited to:

- Seed development
- Seed structure
- Embryo nourishment
- Seed dispersal
- Seed dormancy
- Seedling and germination
- Economic importance

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Seed Science**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	September 28th, 2016
Publication Date	November 2016
