

Special Issue on Phytochemistry

Call for Papers

Phytochemistry is the study of phytochemicals, which are chemicals derived from plants. Specifically, phytochemistry describes the large number of secondary metabolic compounds found in plants. Phytochemistry is widely used in the field of Chinese medicine especially in the field of herbal medicine.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **phytochemistry**. Potential topics include, but are not limited to:

- Natural products
- Herbal medicines
- Biotechnology and chemical analysis
- Metabolomics
- Pharmacognosy and phytochemistry
- Phytochemical health and diseases

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Phytochemistry**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	February 20th, 2017
Publication Date	April 2017
