
Special Issue on Plant Protection

Call for Papers

Plant Protection is the science and practice of managing pests, diseases and weeds that damage crops and other plants, and which can have a devastating effect on farmer livelihoods.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **plant protection**. Potential topics include, but are not limited to:

- Plant biodiversity
- Plant pest and diseases
- Invasive species
- Weed biology and management
- Integrated pest management
- Natural resource management
- Strategies for agriculture and horticulture
- Plant breeding and biotechnology
- Plant protection and environment

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Plant Protection**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	December 26th, 2016
Publication Date	January 2017
