

Special Issue on Gymnospermae

Call for Papers

The **gymnospermae** are original seed plants got a long history which includes cycadopsida, ginkgopsida, coniferopsida, taxopsida and gnetopsida. The goal of this Special Issue is to provide a platform for scientists worldwide to promote, share, and discuss various new issues and developments in the area of gymnospermae.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **gymnospermae**. Potential topics include, but are not limited to:

- Pollination of gymnospermae
- Global distribution and phylogeny of gymnospermae
- Development process and molecular regulatory
- Plants diversity and environment
- Current situation and existing problem

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Gymnospermae**” should be selected during your submission.

Special Issue timetable:
