
Special Issue on Plant Ecology

Call for Papers

Plant Ecology is a subdiscipline of ecology which studies the distribution and abundance of plants, the effects of environmental factors upon the abundance of plants, and the interactions among and between plants and other organisms.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **plant ecology**. Potential topics include, but are not limited to:

- Species distribution
- Biological interaction
- Abundance
- Colonisation and local extinction
- Plant life-form
- Plant strategies
- Plant reproduction

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Plant Ecology**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	June 20th, 2017
Publication Date	July 2017
