

Special Issue on Herbs & Medicinal Plants

Call for Papers

“medicinal plant” include various types of plants used in herbalism ("herbology" or "herbal medicine"). It is the use of plants for medicinal purposes, and the study of such uses. Many of the herbs and spices used by humans to season food also yield useful medicinal compounds.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **herbs & medicinal plants**. Potential topics include, but are not limited to:

- Herbal medicine
- Plant cultivation, growth and management
- Plant physiology
- Active ingredients analysis
- Phytotherapy
- Pharmacognosy
- Herbs with adverse effects
- Clinical trials

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Herbs & Medicinal Plants**” should be selected during your submission.

Special Issue timetable:
