

## Special Issue on Agriculture and Economics

### Call for Papers

Agriculture and Economics research focuses on the intersection between agricultural production and economic principles. This research field examines various economic aspects of agriculture, including supply and demand dynamics, market structures, pricing mechanisms, trade policies, and the overall economic and social impact of agricultural activities. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Agriculture and Economics**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Agriculture and Economics**. In this special issue, potential topics include, but are not limited to:

- Sustainable food systems
- Agricultural and food policy
- Environmental and Resource Economics
- Sustainable rural development
- Food and consumer economics
- Production economics and farm management
- Agricultural finance, policy, marketing and farm
- Land, output, and yields
- Food systems and agribusiness
- Agribusiness management
- Rural and agricultural development economics
- Agriculture and economic development
- Agribusiness and supply chain management
- International trade and agricultural economics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Agriculture and Economics**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 20th, 2024
Publication Date	May 2024
