

## Special Issue on Agricultural Microbiology

### Call for Papers

Agricultural microbiology is a branch of microbiology. It focuses on the study of plant-associated microbes, plant and animal diseases as well as the microbiology of soil fertility. It aims to address problems in agricultural practices.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Agricultural Microbiology**. Potential topics include, but are not limited to:

- Soil microorganisms
- Microbial degradation of organic matter
- Soil nutrient transformations
- Plant-associated microbes
- Arbuscular mycorrhizal fungi
- Nitrogen-fixing rhizobia
- Plant growth-promoting rhizobacteria

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Agricultural Microbiology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 28th, 2015
Publication Date	December 2015

**Guest Editor:**
