

Special Issue on Bacillus

Call for Papers

Bacillus is a genus of Gram-positive, rod-shaped (bacillus) bacteria and a member of the phylum Firmicutes. *Bacillus* species can be obligate aerobes or facultative anaerobes.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **bacillus**. Potential topics include, but are not limited to:

- *Bacillus amyloliquefaciens*
- *Bacillus thuringiensis*
- *Bacillus subtilis*
- *Bacillus cereus*
- Industrial significance
- Molecular and cell biology research
- Ecological significance
- Clinical significance

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – *Bacillus***” should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 17th, 2016
Publication Date	May 2016
