

## Special Issue on Cellular Microbiology

### Call for Papers

**Cellular Microbiology** is the scientific study of the functions and properties of microbial cells. This discipline combines techniques and approaches of classic cell biology and microbiology.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **cellular microbiology**. Potential topics include, but are not limited to:

- Genomics
- Proteomics
- Cell Culture
- Microbial infections
- Bacterial pathogenesis
- Host microbe biology
- Medications and treatment measures

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Cellular Microbiology**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	August 14th, 2018
Publication Date	October 2018
