

Special Issue on Applied Microbiology & Biotechnology

Call for Papers

Applied microbiology is a scientific discipline that deals with the application of microorganisms and the knowledge about them. Applications include biotechnology, agriculture, medicine, food microbiology and bioremediation.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Applied Microbiology & Biotechnology**. Potential topics include, but are not limited to:

- Microbial biosynthesis
- Microbial biocatalysis
- Microbial products
- Biotechnological process
- Industrial microbiology & biotechnology
- Microbiology and fermentation
- Medical microbiology
- Applied genetics and molecular biotechnology
- Microbial enzymes
- Environmental biotechnology
- Microbiology and plant biology
- Microbial biotechnology in agriculture
- Biodegradation and bioremediation

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Applied Microbiology & Biotechnology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	October 24th, 2022
Publication Date	December 2022
