

Special Issue on Higher Education

Call for Papers

Higher education is an educational level that follows a completion of a school providing a secondary education, such as a high school, secondary school, or gymnasium. Tertiary education is normally taken to include undergraduate and postgraduate education, as well as vocational education and training. Colleges, universities, and institutes of technology are the main institutions that provide tertiary education. Examples of institutions that provide post-secondary education are vocational schools, community colleges, independent colleges, and universities in the United States, the institutes of technical and further education in Australia, CEGEPs in Quebec, and the IEKs in Greece. They are sometimes known collectively as tertiary institutions. Completion of tertiary education generally results in the awarding of certificates, diplomas, or academic degrees.

Higher education includes teaching, research, exacting applied work, and social services activities of universities. Within the realm of teaching, it includes both the undergraduate level, and beyond that, graduate-level. The latter level of education is often referred to as graduate school, especially in North America.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Higher Education**.

Authors should read over the journal's [Author's Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue — Higher Education**” should be chosen during your submission.

According to the following timetable:

Manuscript Due	May 30th, 2013
Publication Date	July 2013

Editor-in-Chief

Dr. **Stephen Rushton**

University of South Florida Sarasota-Manatee, USA
