

Special Issue on Innovative Teaching and Learning

Call for Papers

Teaching and learning is a process that includes interactive activities as learners work toward their goals and incorporate new knowledge, behaviors, and skills to enrich learning experiences. Using innovative methods of teaching is a crucial skill for teachers and education staff.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Innovative Teaching and Learning**. Potential topics include, but are not limited to:

- Innovative teaching methods and strategies
- Innovative teaching for effective learning
- Innovative pedagogy and higher education
- Innovative learning environment and classrooms
- Motivation, engagement, and active learning
- Critical thinking and innovative competence
- Integrated approaches of teaching
- Well-rounded education
- Blended learning
- Skills improvement and development
- Proficiency and achievements
- Emerging techniques for education
- Smart education and e-learning
- Game-based learning

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Innovative Teaching and Learning**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 17th, 2021
Publication Date	October 2021
