

Special Issue on Food Sensory Evaluation

Call for Papers

In an ever-competitive marketplace, **sensory evaluation** methods are increasingly being used to help make vital decisions about food and non-food products – from product improvement, quality control and new product development to recipe or production process change and competitor benchmarking.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **food sensory evaluation**. Potential topics include, but are not limited to:

- Methods of food sensory evaluation
- Sensory evaluation technology
- Application in product storage period
- Application in product quality control
- Application in product development
- Development and trends

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Food Sensory Evaluation**” should be selected during your submission.

Special Issue timetable:
