

Special Issue on Food Safety

Call for Papers

Food Safety is a scientific discipline describing handling, preparation, and storage of food in ways that prevent foodborne illness. Food that hasn't been prepared safely may contain bacteria like *E. coli*. Unsafe food can also spread foodborne illnesses like salmonellosis and *Campylobacter* infection.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **food safety**. Potential topics include, but are not limited to:

- Food quality & processing
- Food detection, analysis and safety assessment
- Foodborne illness and allergies
- Foodborne pathogens
- Threat analysis critical control point (TACCP)
- HACCP utilization and food safety systems
- Food service sector
- Food security and food policy
- Sanitary equipment and facility design

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Food Safety**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	September 28th, 2016
Publication Date	November 2016
