

## Special Issue on Food Science and Technology

### Call for Papers

Food science and technology study all branches of science, technology, packaging and engineering of foods and food products. Special emphasis is given to fundamental and applied research findings that have potential for enhancing product quality, extend shelf life of fresh and processed food products and improve process efficiency. New perspectives in food handling and processing, innovative and emerging technologies and trends and future research in food products and food industry byproducts are also included. It is a highly interdisciplinary field which incorporates concepts from many different fields including microbiology, chemical engineering, and biochemistry.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **food science and technology**. Potential topics include, but are not limited to:

- Development and innovation of food
- Food processing
- Food cold chain logistics
- Food safety testing technology
- Food safety risk assessment
- Food biotechnology
- Food machinery
- Food engineering
- Food toxicology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Food Science & Technology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 27th, 2018
Publication Date	February 2019

**Guest Editor:**

**Scientific Research**  
*Open Access*

**Food and Nutrition Sciences**

**ISSN Online: 2157-9458**
