

Special Issue on Advances in Dental Health

Call for Papers

Two major conditions, dental caries and periodontal diseases, are responsible, either directly or indirectly, for most dental treatment and tooth loss. Various studies have reported associations between oral health and systemic conditions. The association between oral health and heart disease, diabetes, and some other diseases has been recognized for many years. As one of the most important factors closely related to human life, **dental health** is of great attractions to researchers.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **advances in dental health**. Potential topics include, but are not limited to:

- Oral health
- Dental diseases
- Clinical symptoms
- Pathology
- Association with disease
- Affecting factors
- Dental precaution and therapy
- Barriers to dental care

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Advances in Dental Health**” should be chosen during your submission.

According to the following timetable:

| | |
|---------------------|-----------------|
| Submission Deadline | July 29th, 2014 |
| Publication Date | September 2014 |
