

Special Issue on Necrosis

Call for Papers

Necrosis is premature death of cells and living tissue, which is caused by factors external to the cell or tissue, such as infection, toxins, or trauma which result in the unregulated digestion of cell components.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Necrosis**. Potential topics include, but are not limited to:

- Osteonecrosis
- Gangrene
- Debridement
- Coagulative necrosis
- Fat necrosis
- Fibrinoid necrosis
- Necrotizing fasciitis
- Toxic epidermal necrolysis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Necrosis**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 30th, 2016
Publication Date	January 2017
