

## Special Issue on Chronic Diseases

### Call for Papers

Chronic disease is a disease that persists for a long time. The term chronic is often applied when the course of the disease lasts for three months or more. Although common and costly, many chronic diseases are also preventable. They are linked to lifestyle choices that are within our own hands to change.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Chronic Diseases**. Potential topics include, but are not limited to:

- Cancers
- Cardiovascular diseases
- Alzheimer's disease
- Chronic kidney disease
- Chronic pain syndromes
- Multiple sclerosis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Chronic Diseases**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 28th, 2017
Publication Date	November 2017

**Guest Editor:**
