

Special Issue on Bone and Related Diseases

Call for Papers

Our bones help us move and support our body. They are living tissues that rebuild constantly throughout our life. Bone diseases are disorders and conditions that cause abnormal development and/or impairment in normal bone development, which can result in weakened bones, inflamed joints and pain.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Bone and Related Diseases**. Potential topics include, but are not limited to:

- Osteoarthritis
- Osteomyelitis
- Osteopenia
- Osteoporosis
- Osteosarcoma
- Osteotomy
- Bone infection
- Bone tumor

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Bone and Related Diseases**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	June 29th, 2018
Publication Date	August 2018
