

Special Issue on Sepsis Research

Call for Papers

Sepsis is the body's overwhelming and life-threatening response to infection that can lead to tissue damage, organ failure, and death. In other words, it's the human body's overactive and toxic response to an infection.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Sepsis Research**. Potential topics include, but are not limited to:

- Symptoms, causes and treatment
- Diagnosis and management
- Risk factors
- Sepsis and septic shock
- Biomarkers in sepsis
- Pathophysiology
- Immunopathogenesis
- Prevalence and predictors
- Organ dysfunction
- Neonatal sepsis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Sepsis Research**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	September 25th, 2019
Publication Date	November 2019
