

Special Issue on Brain Disorders & Therapy

Call for Papers

The brain is part of the nervous system and the control center of the body. When damaged, it can affect our thoughts, memory, sensation, speech, and movement. Brain disorders include any conditions or disabilities that affect the brain, which may be caused by illness, genetics, or traumatic injury.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Brain Disorders & Therapy**. Potential topics include, but are not limited to:

- Brain injuries
- Cerebral palsy
- Encephalomyelitis
- Encephalopathy
- Encephalitis
- Glioblastoma
- Hydrocephalus
- Meningitis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Brain Disorders & Therapy**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 25th, 2018
Publication Date	March 2018
