

Special Issue on Brain and Cognitive Sciences

Call for Papers

Cognitive science is the interdisciplinary, scientific study of the mind and its processes. It examines the nature, the tasks, and the functions of cognition. Cognitive scientists study intelligence and behavior, with a focus on how nervous systems represent, process, and transform information. Mental faculties of concern to cognitive scientists include language, perception, memory, attention, reasoning, and emotion.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Brain and Cognitive Sciences**. Potential topics include, but are not limited to:

- Brain and mind
- Cognitive neuroscience
- Language, brain and behavior
- Information processing
- Neurocognitive mechanisms and learning
- Working memory
- Perceptions and emotions
- Attention disorders
- Brain dysfunction and attention deficits
- Autism
- Cognitive function and Parkinson's diseases

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Brain and Cognitive Sciences**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 13th, 2019
Publication Date	August 2019
