

Special Issue on Drug Delivery

Call for Papers

Topics of drug delivery include all delivery systems including oral, pulmonary, nasal, parenteral and transdermal, and modes of entry such as controlled release systems; microcapsules, liposomes, vesicles, and macromolecular conjugates; antibody targeting; protein/peptide delivery; DNA, oligonucleotide and siRNA delivery.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Drug Delivery**. Potential topics include, but are not limited to:

- Drug delivery systems and devices
- Nanomedicine
- Micelles
- Hydrogels
- Pharmaceutical formulations
- Microcapsules, liposomes, vesicles, and macromolecular conjugates
- Antibody targeting
- Protein and peptide delivery
- DNA, oligonucleotide and siRNA delivery
- Routes of delivery
- Pharmacodynamics and pharmacokinetics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Drug Delivery**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 24th, 2017
Publication Date	April 2017
