
Special Issue on Virology Research

Call for Papers

Virology is a discipline that studies the biology of viruses and viral diseases. It includes the distribution, biochemistry, physiology, molecular biology, ecology, evolution and clinical aspects of viruses. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Virology Research**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Virology Research**. Potential topics include, but are not limited to:

- Coronavirus Disease-2019 (COVID-19)
- Virus replication
- Viral pathogenesis
- Immunity to viruses
- Virology and HIV
- Medical virology
- Virology and infectious diseases
- Influenza viruses
- Herpes virus

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Virology Research**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	May 26th, 2021
Publication Date	July 2021
